The benefits and elegance you want

Ornamental Fencing

www.ultrafence.com

ULTRA DESIGN STUDIO
see how the pros design for you

Ultra Aluminum™ ornamental fencing retains that impressive look of wrought iron, but is designed to withstand the tortures of weather, pollution, chemicals and savage environments. Ultra started with humble beginnings in 1996 and a desire to replicate the intricate details of historic ornamental iron fences, using materials that are just as strong, but stand up to the variations of weather and climate with long-lasting durability. Traditional or contemporary, elaborate or simple design — Ultra has a high quality, well-made fence to fit the bill.

Superior Product Design for Ultra-Strength

Ultra's high strength, aluminum alloy is as strong as steel, but will never rust. Our 6005-T5 alloy has a minimum strength of 35,000 psi.

We put more dimension into our version of spear tops. The more pronounced ribs add structural integrity as well as architectural appeal and shows more detail than most competitors.

Ultrarail™ – 20% more aluminum in all our rails, with a full 8 ribs inside. Maintains Ultra-Strength even when punched for pickets.

All gates are fastened with stainless-steel fasteners and 100% welded at all connections and joints designed to stand up to the rigors of everyday use.

Ultra's powder coated finish meets AAMA 2604 specifications, allowing us to produce a high-quality, long-lasting finish.

Finials, butterflies, scrolls and circles take your fencing to a new level — heavy-duty cast accessories for truly distinct designs. For structural integrity and strength you can count on.

Styles featured on this page:

The Ultra Advantage

The biggest advantage to an Ultra Aluminum™ product is its maintenance-free characteristics. Unlike steel or wrought iron, our products won't rust, and our powder coat finish is guaranteed. And strength is never compromised with an Ultra product. Ultra's high strength, aluminum alloy is as strong as steel and has been tested to withstand hurricane wind gusts up to 259 mph.

What are the benefits of Ultra Aluminum™ ornamental fencing?

Customization is a big asset when purchasing an aluminum ornamental fence. You can add mid-rails, circles, scrolls, and finials. Pickets above the top rail can be straight, staggered, concave or convex. With slight modification, they can also provide trusted security. You can add stronger, larger and taller pickets, and reinforced rails.

ornamental fencing

The clean lines of the UAS 100 fence go well with the architecture of this modern home.

AVAILABLE IN: Residential Series, Residential Series Premium, Commercial Series and Commercial Series Premium

Ultra's Premium Grades have a reinforced double-wall rail with hidden fasteners.

Make a Splash

This UAF 200 pool fence with flush bottom meets BOCA Code and works on this contemporary pool fence.

Relax and enjoy your pool, knowing it is protected by an Ultra Aluminum fence.

Ultra Aluminum™ designs fencing to meet all pool safety codes

Fencing by Ultra Aluminum™ is designed to meet all the stringent BOCA swimming pool safety codes. Several residential picket fence styles and the Ultra™ Privacy Fence styles are specifically designed to comply with BOCA code. Ultra Aluminum™ assumes no liability for improper installation. Code compliance is the sole responsibility of contractor.

Architecturally Appealing Colors

All colors are applied with an exclusive powder coat finish to meet AAMA 2604 Standards to resist harsh weather and heat.

Standard Ultra Aluminum Colors							Premium*

Make a grand entrance

Ultra Aluminum™ Gates create a luxurious entry to your home or business.

Drive gates may be used as driveway entrances, large walkway or path entrances, or in unpaved applications such as backyards, pastures, and parks. Ultra Aluminum™ Drive gates are available in heights of 4', 5', 6', 7', and 8'; widths are max 12' Residential, 16' Commercial, and 28' Industrial. Almost any brand of gate opener can be used with any style of drive or walk gate. Ultra's grand entrance gates are designed to match the rest of your fencing, and blend with your architecture.

This UAS 100 drive gate adds beauty and security to this property.

UAS 100 estate gate has it all — tri-finials, circles at top and bottom, welded U-frame, and ornate custom inlays — resulting in a beautiful and secure grand entrance.

UAF 200

Ornamental Gates to meet all your needs.

Ultra Aluminum™ makes a scale of fencing for every neighborhood, home style and commercial application. We also make a wide variety of matching gates for any setting, including grand entrance ways, walkways and pool areas. Ultra Aluminum™ Gates are an exact match to our many Ultra Aluminum™ Fence designs, and are available in standard and premium grades. Our walk gates make ideal entryways to front and back yards, sidewalks, and pools.

From Top to Bottom: The UAF 200 walk gate provides secure access to the lakefront and the beach, this UAS 100 custom nautical themed inlays are a one-of-a-kind accent for this luxurious waterfront home; staggered spears and arched top spruce up this UAS 150 walk gate; UAF 200; 4-rail walk gate blends perfectly with the fence.

Matching Walk and Drive Gates can typically be manufactured in widths ranging from 3'– 28' and in heights from 3'– 8'. Please consult your sales representative for variations.

Strong. Beautiful & low maintenance.

Ultra™ Louvered Privacy Fence provides privacy with airflow.

Ultra™ Louvered Privacy Fence won't rack and wobble and allows plenty of airflow. It has many uses in residential, commercial or industrial applications such as patio or balcony screening, to contain or shield air conditioning equipment and much more. Ultra™ Louvered Privacy is offered in 6' wide by 4', 5' and 6' high sections and provides 145 degrees of 100% visual privacy block at a level site line. Manufactured with Ultra's high strength, aluminum alloy, these panels are as strong as steel, but will never rust.

Colors shown represent an approximate comparison and may vary slightly from actual color. *Premium Colors are available at an extra charge and may require additional lead times. Ask your Ultra Representative for details.

Gloss or Textured Finishes

Our advanced powder coat finish allows us to produce a high-quality, long-lasting finish on our aluminum, which is also environmentally friendly. Ultra's powder coated finish is AAMA 2604 specifications, allowing us to produce a high-quality, long-lasting finish.

Materials

Ultra's high strength, aluminum alloy is as strong as steel, but will never rust. Our 6005-T5 alloy has a minimum strength of 35,000 psi.

Ultra Aluminum™ Warranty

Ultra Aluminum™ fence products are guaranteed against defects in workmanship and/or materials. The powder coat finish on all fencing by Ultra Aluminum™ is guaranteed against cracking, peeling or chipping. Visit our website for more information and a copy of the warranty.

Environmentally Responsible

We are proud to use recycled aluminum in our products. Aluminum is the most commonly recycled metal in the world. Our powder coating process is environmentally friendly and virtually pollution-free.

This UAF 200 with heavy-duty pickets, rails and spears protects this football field from any unnecessary roughness to the turf or its facilities.
